

The diagram shows a square layout for a cover page. It features three concentric lines: an outermost blue line (bleed line), a middle red line (cut line), and an innermost green line (safety line). Arrows point from each line to its corresponding text block. The text explains that the blue line is for bleed, the red line is where the product is cut, and the green line is for safety. Dimensions for finished size and with bleed are provided, along with a reminder to delete template elements before submission.
